this is the master guide to the world of online public records

over the course of the last two decades improved practices in child and adolescent mental healthcare have led to a decreased environment of stigma which also led to an increased identification and treatment of mental health disorders in children and youth considering that treatment and outcomes are improved with early intervention this is good news however the success gained in the field of child and adolescent psychiatry leads to a new challenge transitioning from adolescent care to adult care it has been known for some time that children adult and geriatric patients all have unique needs where it comes to mental healthcare yet limited work has been done where it comes to the shifting of the lifespan where it comes to the child adult transition defined as those in their late teens and early mid 20s there can be multiple barriers in seeking mental healthcare that stem from age appropriate developmental approaches as well as include systems of care needs apart from increasing childhood intervention the problem is exacerbated by the changing social dynamics more youths are attending college rather than diving straight into the workforce but for various reasons these youths can be more dependent on their parents more than previous generations technology has improved the daily lives of many but it has also created a new layer of complications in the mental health world the quality and amount of access to care between those with a certain level of privilege and those who do not have this privilege is sharp creating more complicating factors for people in this age range such

societal change has unfolded so rapidly that training programs have not had an opportunity to catch up which has created a crisis for care efforts to modernize the approach to this unique age group are still young and so no resource exists for any clinicians at any phase in their career this book aims to serve as the first concise guide to fill this gap in the literature the book will be edited by two leading figures in transition age youth both of whom are at institutions that have been at the forefront of this clinical work and research this proposed mid sized guide is therefore intended to be a collaborative effort written primarily by child and adolescent psychiatrists and also with adult psychiatrists the aim is to discuss the developmental presentation of many common mental health diagnoses and topics in chapters with each chapter containing clinically relevant bullet points and or salient features that receiving providers who are generally adult trained should keep in mind when continuing mental health treatment from the child and adolescent system chapters will cover a wide range of challenges that are unique to transition age youths including their unique developmental needs anxiety mood and personality disorders at the interface of this development trauma and adjustment disorders special populations and a wide range of other topics each chapter will begin with a clinical pearl about each topic before delving into the specifics

this comprehensive book thoroughly addresses all aspects of health care transition of adolescents and young adults with chronic illness or disability and includes the framework tools and case based examples needed to develop and evaluate a health care transition hct planning program that can be implemented regardless of a patient s disease or disability health care transition building a program for adolescents and young adults with chronic illness and disability is a uniquely inclusive resource incorporating youth young adult caregiver and pediatric and adult provider voices and perspectives part i of the book opens by defining health care transition describing the urgent need for comprehensive transition planning barriers to hct and then offering a framework for developing and evaluating health care transition programs part ii focuses on the anatomic and neuro chemical changes that occur in the brain during adolescence and young adulthood and how they affect function and behavior part iii covers the perspectives of important participants in the hct transition process youth and young adults caregivers and both pediatric and adult providers each chapter in part iv addresses a unique aspect of developing hct programs part v explores various examples of successful transition from the perspective of five key participants in the transition process patients caregivers pediatric providers adult providers and third party payers related financial matters are covered in part vi while part vii explores special issues such as hct and the medical home international perspectives and potential legal issues models of hct programs are presented in part viii utilizing an example case study representing perspectives from over 75 authors and more than 100 medical centers in north america and europe health care transition building a program for adolescents and young adults with chronic illness and disability is an ideal resource for any clinician policy maker caregiver or hospitalist working with youth in transition
